Jinko need

The collection of v

Sites ka matlab ho

Answer :2--> 3

Practice Problem:

- What is Site?
- What is Architecture? Explain Frontend, Backend and Database.
- Architecture diagram on draw.io
- Deploy 1 Tier Netflix Application?
- Deploy 1 Tier ChatBot Application?

Please complete the assignment before Thursday, 18th December 2025, 9:30 PM

**DOUBT/OPTIONAL/REPEAT CLASS is on
THURSDAY, 18th December 2025, 9:30 PM**

Don't repeat ka wahi join kare, Koi bhi naya topic cover nahi hoga.

Site

Webpages is called a sites means where we run the websites

Data hai internet par bani pages jaha se ham jankari leete hai

Example: google chrome, Amazon/Flipkart

Type of sites

There are three websites-

Architecture

2-Tier Architecture

Front-end code

Yha do jagah hote hai coding parts

Back-end + database

3-Tier Architecture

Yha 3 jagah ham code likhte rakhte hai yhi industry ke liye demand me hai

Front-end + back-end

Database

Front-end

Back-end

Database

Example

Flipcart, banking apps, jivan sathi enterprise system

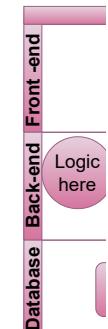

3-Tier Architecture

Front-end

- 1. Jo samne se dikhe isme, isme user logo page profile contact ye sab component saka hai ham ye lang ka use kar sakte hai , ye user friendly hota hai
- 2. Eg-> Restorent ya dhaba

- HTML
- CSS
- Java script
- Angular JS
- Next.JS
- Android/iOS

Front-end
Code

DevOps engineer

3-Tier Architecture

a 3 jagah ham code likhte rakhte hai yhi industry ke liye demand me hai

Back-end

1. Jisme logic ho jo back end se karte hai jise user nahi dekh skta hai , ye user friendly nahi hota hai
2. Isi backend se handle kiya jata hai
3. eg-> Kitchen room jaha ban jaye khana

Database

- 1.Ye database hai yha ham data store aur handle karte hai aur data provide karte hai
- 2.Mostly JSON/ Tbles yhi use hote hai.
eg.->Store room

1. .Net
2. Java
3. Python
4. Rust
5. Go

- MySQL
- PostgreSQL
- MongoDB
- SQL Server

Logic:

Logics for 3 tier Architecture

Input A value

Input B value

Sum

Input A value

Input B value

Frontend → Backend

Store Sum → Result

Back-end
Code

Database
Query

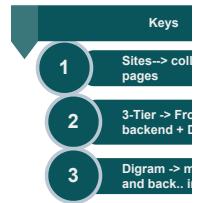

DevOps engineer

DevOps engineer

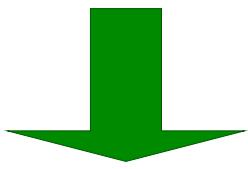

DevOps ki yatra Draw.io aur VS code shor hote hai

Devops engineer code

DevOps engineer

DevOps engineer

Deploy all the code

check karke devops karta hai aur sasta aur tikau websites banata hai
